Short and sweet. Very precise. To the point. All great things in a presentation. Very nice job! Liked the production overall - Like the names on the screen and like the presentation mode.

Spent a lot of time reading the slides, especially the features. The presentation would be stronger if you used the demo instead and introduced features or amplified key points.

Overall, substantiated claims - good

The section on tech transfer versus next steps is a little confusing.

Great demo video.

Solid system demo. Would have been better with a maven step.
